A TO Z ESTATE SALE IN PATEROS

228 Beach Street. Thursday, May 30, Friday, May 31, Saturday, June 1, 10am to 2pm. Bring your own personal shopping bag, box or tote, you'll need it. Wrapping up a huge estate sale in Pateros. There is so much left to get & now we will have 50% off on everything Thursday & Friday. On Saturday, we will have a mystery discount! But you will have to check Craigslist or Facebook Marketplace on Friday evening to find out what we will be doing. You can also email me at dga0295@gmail.com, no earlier than 4pm Friday, May 31 to find out, or to receive a dropbox link of items still available. I won't answer until 4pm or later. I'd come early to get the best deals & then come back on Saturday if there is more you'd like to obtain. Refrigerator, freezer, doll houses & accessories, antique portable sewing machines, furniture, yard art, garden pots, old bed frames, cast iron tub, small hand & garden tools, German steins/ beer mugs, lots of linens: tablecloths, runners, rugs, towels, quilts, napkins, etc; vintage pottery, dishes, lots of nice Christmas at 75% off: villages, ornaments, wreaths, small lighted trees & more; craft items 75% off, outside wicker, lots of DVDs, vintage & current clothing, vintage hats, jewelry & way too much to list! Best pictures will be on Craigslist Wenatchee

Fishing Magician

Dave Johnson

Reach Dave @ www.FishingMagician.com or FishBoy@nwi.net "The Outdoor Insider"

I was able to get out on the water a couple of times last week. I fished for walleye on Moses Lake and triploid rainbow trout on Rufus Woods. I hope you had a great Memorial Weekend. I saw lots of campers, RV and boats going and coming back from the weekend here on the highway through Leavenworth.

I reported that I recently had a great day fishing for walleye on Moses Lake with my friends James Lebow and Ryan Harris. I wanted to get right back down there, and although they agreed to go, James thought that the area we were fishing may have been hit pretty hard over the weekend. Boy, what a nice surprise for us. It was even better than the first trip. We left the launch at Lower Peninsula and had our first fish by 7:30. We caught several catfish, a couple of perch and released five walleye that were undersized. There were 24 very nice walleye in the live well by 10. We didn't run out of worms this time! We were fishing in eight to nine feet of water along the weed beds on the east side of the lower lake, trolling at about 1 mph. Hands down, the best color of Smile Blade was the sparkly green. I noticed that the water temperature was the same 60 degrees that it was four days earlier, and I am hoping that it stays that way a little longer. The walleye we landed were 15 to 20 inches and feeding heavily on small perch.

James Lebow and Michael Ericson and I made our trip to Rufus last week. When we arrived, there was a person fishing from the shore. He had fished there the day before and complained that all he could catch were small fish. A tribal parks person had stopped by and told him that there had been a very recent release of twelve to fifteen thousand fish and that's why he couldn't catch anything bigger. Knowing this we decided to start above the upper pens, off what is known as The Greenhouse. I thought that we could get above the pens, where the fish are released and catch fish that had been in the reservoir for a while. However, we fished without getting a bite and then we headed down to the upper pens, thinking that since we were here, let's

get our fish and get on the road which we did. It took no time at all to get the six fish we needed for our limits. We will wait before planning another trip to Rufus, and let these fish grow. This week's photo is of the Smoker Craft that I am driving for Bob Feil Boats and Motors this season.

Every time I check the Facebook Page for the Bob Feil Boats and Motors Summer Kick Off event on June 7th and 8th, they have added something new. These two days are packed with a variety of things that recreational boaters and anglers will not want to miss. There are some serious

discounts on a variety of products throughout the store. Plus, there are seminars electronics by Gary Feil. There's one on sockeye salmon and Chinook salmon fishing by Austin Moser. I will be giving one on where to find the biggest trout in our region, and Cody from the Central Washington Bass Club will be talking about how to catch bass. Reps from both Yamaha and Mercury will be on hand to answer technical questions. There is going to be the D's Beans food truck at the dealership. Also included is the opportunity to get some important information on boating safety. The event will be going on from 9 to 5 on both Friday and Saturday. Bob Feil is offering special Boat Show pricing on their new boats, too. Be sure to check out their Facebook Page for details and more updates prior to the event.

Fishing for spring salmon on the Icicle River at Leavenworth has been just fair, considering it is early in the season. The fish checker reported six fish landed on the opening day, with

about 15 anglers fishing from shore and another 20 floating the river. The good news is that there are still good numbers of springers on the way. The counts over Rock Island Dam are still in the 600 per day range. The river is high but not cloudy. As those of you that are familiar with the Icicle, shore access is very limited, and it doesn't take a whole lot of boats to fill the good spots. It is a beautiful float, though, and when I have been fortunate enough to get a seat in one of my friends boats, I probably spend more time marveling at the scenery than watching my rod tip. Also, anglers are hoping to see enough fish enter the Wenatchee River that they will open it to springer fishing. There are many good places to fish from shore on the Wenatchee. The Colville Tribe continues to release thousands of springers every year, and there could be a main stem Columbia River fishery in the future.

Here it comes again. It's the Free Fishing Weekend from the Washington Department of Fish and Wildlife. Scheduled for June 8th and 9th this year, anglers across the state can fish without a license. Every year people take advantage of this opportunity to fish the lakes in the state that have been planted with rainbow trout and also fish for the spiny ray species that are abundant in many of them. Every year families enjoy the experience and make fishing part of their regular outdoor activities. Those who turn out for the Free Fishing Weekend can also participate in the WDFW's Annual Trout Derby and catch a tagged trout that is worth a prize. All rules for size limits, daily limits and area closures are still in effect. It's a good idea to pick up the Washington Sportfishing Rules pamphlet when you visit your local sporting goods stores to get what you need to fish during the Free Fishing Weekend. This will give you all you need to know about the rules and any special regulations that apply to the lake you are going to fish. You can get more information about this special event on the WDFW's website.

ED SNEVA MEMORIAL BACK AT STATELINE SPEEDWAY, JUNE 1

STATELINE — The Ed Sneva Memorial race returns to Stateline Speedway on Saturday, June 1 bringing with it a tribute to Spokane's long-time family of speed.

The featured Can-Am Sprints will be the featured class with nearly 30 cars pre-entered according to Shawn Priest and features a family connection, TJ Sneva, son of the late Jerry Sneva.

"We only have a few rules, no wings, American racers tires, and no bad attitude," Priest wrote in an email.

Any sprint car or supermodified chassis is allowed. Some were built in the 1970s to today's modern style sprint cars. Drivers ages have ranged from 15 to 85 years old so some drivers have years of experience and some are just starting their career.

First organized in 2015, the event honors Edsol Sneva who began racing both locally and regionally in the 1950s.

Edsol "Ed" Sneva died in 2014, but "Dad was not the funeral kind of guy so having a race like this is what he would have wanted," his youngest son, Blaine Sneva once said.

"He built a family dynasty of race car drivers, it was amazing," said Norm Ellefson who drove against Tom Sneva many times in the 1960s and 1970s.

Three of the boy's, Tom, Jerry and Jan all have driven on the sacred ground of the Indianapolis Motor Speedway. Tom earned his place in motorsports history winning the coveted race in 1983, helping pave his road to induction into the Motorsports Hall of Fame of America in Detroit.

In a comparison best illustrated by football, what Edsol Sneva accomplished might compare him in some respects to racing's version of Archie Manning whose sons, Payton and Eli, have accomplished amazing things on the football field.

Edsol moved to Spokane and finished his formal "book learning" in 1948, graduating from Lewis and Clark High School. There he was a standout athlete, a four-year letterman in football, basketball and track.

BECK WINS AT SPOKANE RACEWAY'S FIRST EVENT

As Spokane was celebrating renewed interest in the environment with Expo 74, out in Airway Heights came a different focus.

Fifty years ago this week from May 31 through June 2 Spokane Raceway Park staged its inaugural race hosting the American Hot Rod Association Spring Nationals.

Edmonton's Gary Beck game away the winner on June 2, 1974 in top fuel dragster over "Big Daddy" Don Garlits turning a 6.00 second elapsed time on the brand new

He met Joan Giles and they graduated together. They were married Feb. 26, 1948 and made Spokane their home. Ed and Joan had six children, five boys and one girl.

Ed began his love of racing cars in 1950, first at Mead Speedway, then Wednesday nights at Memorial Stadium, better known now as Albi Stadium.

"The first day out he made a clean sweep," Joan Sneva said in a 1973 Spokane Daily Chronicle story of Ed's debut on the dirt track at Mead.

"I just knew he'd make a big fool of himself, and I remember saying that to him, too," said in a 1973 Spokane Daily Chronicle story. "I just couldn't believe it (the sweep). I didn't think he knew what he was doing in the first place, but he sure did."

Joan Sneva, who passed away in 2017, also remembered in that story how Ed started racing before he was the legal age of 21. He had newspaper delivery routes to pay for his racing habit.

Ed dominated racing in the Inland Northwest as a driver. At one point the other drivers coerced the promoter to buy Ed's winning car and cut it up. But his sponsor, the city of Ritzville, just built him another car and it kept on winning.

When he finished racing, Ed started an automobile repair business in Spokane and a race car shop in the basement. When they were old enough, Ed passed along his love for racing to his sons.

Tom was the first one to enjoy Ed's innovations. Ed built the first rear engine short track car, which Tom raced locally and against the Canadian American Modified Racing Association (CAMRA) teams.

With the success of that rear-engine, low-budget car, and Ed being an innovator, he came up with an idea and approached friend and racecar builder Jim Tipke.

He wanted Tipke to build the most radical short track race car ever for Tom to drive. It would be a rear engine, offset, 4-wheel drive car that dominated CAMRA right out of the shop. The competitors wanted the car banned. Tom easily won the 1970 CAMRA championship, helping to launch his IndyCar career.

Sneva had no formal mechanical training, just a natural God-given ability for what he did. His ability was natural, Blaine Sneva said. "Why have something that someone else has if you can make it."

As for Sneva and Tipke, among others, "(They) didn't know they can't do things, so they just go ahead and do them," added Ellefson, a member of the Canadian Motorsports Hall of Fame.

Don "The Snake" Prudhomme also won the funny car title with a 6.4 ET over Tom Hoover. The race was witnessed by an estimated 15,000 people according to newspaper reports.

MOTORPLEX AT THE MILL: A NEW SPEEDWAY IN SPUD COUNTRY

EMMETT, Idaho — In an age when racetracks in the region have disappeared with regularity, a new one has sprouted in spud country.

The Motorplex At The Mill held its official opener May 25 on the site of the former Boise Cascade mill in Emmett, Idaho, just a bit northeast of Boise.

In the past 40 years over a dozen racing venues have closed or mothballed in the Pacific Northwest but this 3/8ths mile multi-purpose facility helps reverse that trend.

One of those tracks is the shuttered Chaparral Speedway, located on the Firebird Raceway drag strip just to the south.

"We're going to be hosting events such as lower-level NASCAR racing, local series circle track, drifting, go-karts," Travis Milburn, promoter told MyRacePass.com. "We're also going to be having potentially some time trial car racing. So pretty much anything motorsports you can do in a facility of this size, we're going to be we're going to be doing it."

The Spokane-centered Northwest Super Late Model Series has a June 29 date at the track.

Groundbreaking took place in 2019 as Gem State Raceway with an expected opening in the summer of 2020. But COVID put a wrench in the developmental gears with amenities to include a road course.

"Originally it was going to be a roadcourse but the funding dried up when Covid happened," Millrun wrote in a text message. "Now there is a Royal course where we have gokart races and drifting events."

The racetrack is just one part of things.

That also includes Stoney's Roadhouse - which opened in 2020 and hosts county music concerts, a drive-in movie theatre, and a planned 137 full hookup RV park.

"So, it's really built to host everything," Milburn said. "It's not just one thing here or there. So, we want to affect and touch as many people as possible."

There will be things going on here that have nothing to do with racing, but the track itself can still be a part of that, Millrun added.

Developer and landowner John Wood is the sole financier of the project and the amount he has put into it is undisclosed, Millrun indicated. "But it is 100% paid for and there is zero debt. You will see over the years constant improvement to the facility."

Introduction to Green Building for Consumers

Are you interested in a home that is cost-effective to operate, has healthy indoor air quality, and has a minimal impact on environmental resources? Learn about energy-efficiency construction and remodeling to create your own green dream home.

Hire an Industry Professional

Through NAHB's Certified Green Professional (CGP) designation program, you can find a builder, remodeler, architect, designer or other professional committed to making your home green. CGPs will explain the hows and whys of green building, and help you decide on the high-performance strategies that are appropriate for your project.

A CGP has been trained to:

- Choose products and practices for greater energy efficiency
- Provide guidance on indoor and outdoor water conservation practices
- Optimize indoor environmental quality
- Identify and choose sustainable building products
- Develop sustainable site development strategies
- Meet the benchmarks of the ICC/ASHRAE 700-2015 National Green Building Standard™(NGBS)

Have Your Home NGBS Green Certified

LOWER UTILITY BILLS

Incorporating green building practices and high-performance features into your new home or remodeling project is the first step. Certification to the National Green Building Standard (NGBS) provides independent, third-party certification for new and renovated single-family homes (and multifamily apartment buildings). Administered through the Home Innovation Research Labs, the NGBS is the only residential green building rating system that has received American National Standards Institute (ANSI) approval.

The NGBS has four levels of certification — Bronze, Silver, Gold and Emerald — to designate different thresholds of a home's energy performance.

BUILD EQUITY FASTER

INCREASED RESALE VALUE

The four certification levels enable builders to make the best choice for their projects based on market preferences, buyers' budgets, and other regional or cultural influences. The NGBS is the only residential green certification program that requires increasingly higher thresholds in all categories of construction for a home to reach the next (i.e., more energy-efficient) level of certification.

Survey results show that 94% of owners of NGBS-certified homes would recommend a green residence to a friend or family member, and 95% are satisfied with the features in their home. Ask your builder, designer or Certified Green Professional (CGP) about having your home certified. Learn more at NGBS.com.
