WEEKLY Horoscopes

for August 22 - August 28

- ARIES – Mar 21/Apr 20**
You are the master of leaping before looking, Aries, and this week is no different. You are not satisfied with hanging back and assessing the situation before acting. You're right in the mix.
- TAURUS – Apr 21/May 21**
Taurus, do not pretend to be a neutral party when two people come up to you seeking advice. You are too loyal to avoid taking sides, but it could affect the relationship with the other person.
- GEMINI – May 22/Jun 21**
Gemini, it may be time to step in and help a loved one refocus their energies. Rather than let them dwell on a difficult situation, work to offer them a new perspective.
- CANCER – Jun 22/Jul 22**
Use the past as motivation to make some serious changes in your life, Cancer. This is the week to begin plotting a few ideas that can have a large impact.
- LEO – Jul 23/Aug 23**
Leo, there may be some room in the budget for a few splurges this week. As long as you do not go too overboard, you can snag that item that you have had your eyes on for some time.
- VIRGO – Aug 24/Sept 22**
Don't be so sure that you've examined every detail and checked them multiple times, Virgo. Your plan has to be foolproof for it to work. Run it by another set of eyes.
- LIBRA – Sept 23/Oct 23**
Libra, if no one is asking for advice right now, it's best to leave your life coach tendencies on the side. If and when someone needs your help, you can believe they'll come calling.
- SCORPIO – Oct 24/Nov 22**
Scorpio, you have big news and you're ready to tell the world. Hold it in a little longer so that your audience will be chomping at the bit to hear what you have to say.
- SAGITTARIUS – Nov 23/Dec 21**
Sagittarius, it can be challenging for you to avoid the soap opera that is seemingly unfolding around you right now. Do your best to stay out of the fray for the time being.
- CAPRICORN – Dec 22/Jan 20**
Capricorn, if someone in your social circle is in need of a new perspective, you may have to speak up and help get them on a better path. Take this responsibility seriously.
- AQUARIUS – Jan 21/Feb 18**
You have come a long way in a short time, Aquarius. Keep up the hard work and you will continue to see results you can be proud of.
- PISCES – Feb 19/Mar 20**
Pisces, you will have to try to tune out the static all around you this week and concentrate on the things you need to accomplish. There is no wiggle room for distractions right now.

Fishing Magician

Dave Johnson

Reach Dave @ www.FishingMagician.com or FishBoy@nwi.net "The Outdoor Insider"

Like many anglers, I had the best sockeye season ever on Lake Wenatchee. The number of fish I put in my boat this season was phenomenal. I have never seen so many windy days on the lake as I did this season, but in spite of that people put limit after limit of sockeye in their boats. It's time to move on, though, and start taking advantage of some of the other great fishing opportunities in the region.

When sockeye fishing is as good as it is on Lake Wenatchee, it's hard to quit. It's time though. I need to get on with some video projects and some other fisheries that I enjoy in the summer. I had spectacular fishing, as did many others this year. The incredible return of sockeye made for a season to remember. I put triple digit numbers of fish in the boat and am on my third punch card. It was a wonderful experience, taking so many of my family out fishing and seeing the fun people had when on my boat. I should thank them for getting up so early and getting knocked around on the many windy days that we had this year on the lake. I also want to thank my good friend Rollie who has provided me with space on his dock. It made it so easy for me to get folks out on the water. My thanks goes out to Jim Passage who always helps me move my boat to the State Park launch and to Tom Verschuren who helped me move my boat and trailer home. Next stop—Banks Lake!

I have mentioned that I have done better fishing for sockeye on Lake Wenatchee when there was some wind. There can be too much, though. Last Tuesday it was blowing when we left the dock and got worse. It can be tough trying to manage the rods and keep your speed right in these conditions. Last Wednesday was different. There was some wind, but not enough to force me to start the kicker in reverse to keep our speed down. Tom Verschuren and I got limits of sockeye and found that we could get fish on a variety of hook colors. We got them on black hooks, bright pink and bright orange. We didn't bother with the double dodger setup on the downriggers either. We got fish at the top end and then just continued down

the lake out in the middle and had our limits by the time we were across from the dock where we launch. The fish are still in good shape, but there was one in our catch that was washed out. Better get your fish now while they are worth keeping. The change from bright red meat to orange and then white happens fast.

When James Lebow asked me to join him last Monday for a trip to the Brewster Pool to do some sockeye fishing I said yes. James has a soft spot in his fishing heart for the Pool and hadn't been up there yet this season. Michael Ericksen also came along, and we left

solutely loves it. I also introduced her to walleye fishing on the big reservoir, and she has had incredible luck. I took her to the Million Dollar Mile, and her first walleye was 26 inches long and her second was a 24 incher. The following year she landed a 30 inch walleye in the Punch Bowl. I joked that I was going to rent her out to some tournament anglers I knew. They could use someone with her luck in their boat! When we fish Banks we stop fishing for walleye or bass and take a swim. She was thrilled to see that the new Smoker Craft Phantom I am driving has a ladder on the off shore bracket. Getting into the boat after a swim could be a struggle in the other boats. If the walleye fishing is slow, we can always catch a bunch of smallmouth on Banks. Whether we catch fish or not, we have a great time on Banks. This week's photo is of Whitney with her whopper walleye.

The Washington Department of Fish and Wildlife welcomes back its original invasive species mussel-sniffing dog, Puddles, after her retirement a year ago. Puddles, along side with her handler, Sgt. Pam Taylor, has re-joined the mission through Mussel Dogs, a company specializing in training dogs to detect invasive mussels on watercraft. The WDFW has contracted them as "roving" inspectors to monitor Lake Roosevelt for zebra and quagga mussels. My wife and I have met Puddles and Pam a couple of times when returning from Idaho at the inspection station outside of Spokane. I have posed for several photos with Pam and Puddles there and at invasive species information events in Wenatchee and Leavenworth. Welcome back, you two, and thanks for the good work keeping these invasive species out of Washington's waters.

There are some terrific fisheries underway right now and some others coming up very soon. Like I said, I want to try Banks Lake for walleye and smallmouth bass, and maybe even some whitefish. Potholes should also be great for walleye, bass and crappie. Fall salmon fishing isn't that far off, with fisheries opening on the Columbia the first of September. I hope to see you out there!

SERVAL CATS

First discovered in 1776 in Africa, the Serval is a carnivorous wild cat that is finding a new home in the pet industry. They have an incredible sense of hearing and can leap over 6 feet above the ground!

MAINTENANCE TIPS FOR FIRST TIME HOMEOWNERS

Part 1

As a first-time homeowner, you now have a place to call your own. Routine home maintenance will help you enjoy your new home for years to come. Maintaining your home not only helps ensure your home is working at an optimal level, but helps to identify or fix problems before they become a larger issue. To keep your home comfortable and enjoyable, consider adding these maintenance items to your annual list of home activities:

☐ Schedule an HVAC Tune-up

Annual HVAC checkups can extend the life of your unit, regardless of its age. Typically, a qualified professional will thoroughly clean your unit and identify

if any leaks are present. Although an HVAC tune-ups usually occur annually, experts also recommend changing your air filter every 60 or 90 days. Other factors — such as your home size, pets or allergies — can alter how often your filters should be replaced. Changing out your air filter will reduce the wear and tear on your unit, and improve the airflow in your home.

☐ Clean Your Gutters

Making sure water flows away from your home during a storm is critical. Your gutters protect your home's foundation, roof and walls by controlling the flow of

rainwater from your roofline. Neglecting your gutters can lead to mold or water damage to the exterior or interior of your home. Although it may seem like a hassle, it is important to keep your gutters clutter-free. Also, make sure to read all warning labels and follow manufacturer instructions if you are using a ladder to clean your gutters.

☐ Touch Up Exterior Paint

Eventually, the exterior of your home will endure wear and tear because of the elements. Adding a fresh coat of paint where needed not only

enhances your home's curb appeal, it functions as an extra layer of protection to your home. A simple visual inspection around the exterior of your home once a year will help you identify problem areas. It is important to address any issues, such as cracking or peeling paint, before it gets worse.

SPOKANE'S BROWN WINS 5TH ANNUAL OLGA'S CALIFORNIA DREAM 100 Story by Steven Blakesley

MADERA, CALIFORNIA (August 17, 2024) – Spokane, Washington's Andy Brown won fast-time, overcame a 20-car inversion, and stormed to victory lane in the MAVTV-televised Olga's California Dream on Saturday night at Madera Speedway. The fifth annual event attracted over 40 Mini Stock participants to the pit area for the 100-lap grind on the one-third mile speedway.

"This is awesome. I've won a couple late model races in the Northwest but this awesome," Brown said. "Can't thank everybody enough. I've got the best friends and family. I can't believe it!"

Despite a furious challenge from Brad Rhoads of Pasco, Washington, Brown held the lead as they darted in and out of lapped traffic. Brown won by a car length followed by Rhoads, Camron Jeske of Spokane, Gary Cagle of Fort Collins, Colorado, and Rupert.

"I was getting tired; I'm not going to lie. It's pretty good when the car is good like that," Brown said.

2023 runner-up Cody Parenteau of Lakeside led the opening lap of the 24-car feature. 2023 winner Drew Crenshaw of Nampa, ID took the lead on lap two. Colton Schultz of Spokane, winner of the fast-dash, went up in smoke for a caution on lap eight.

Joe Flower of Stockton got sideways in front of the pack on the restart but everyone avoided him with the race staying green. Crenshaw led the field into lapped traffic on lap 16. Casey Jeske of Spokane led the Jeske three-car assault when he advanced to second. Jeske then seized the lead on lap 32.

Crenshaw suffered a flat right front tire

and lost laps in the infield. Terry Armstrong of Spokane, the inaugural Olga's race winner, faltered from fourth position. The No. 168 of Mitch Jeske closed in on his son Casey and took the lead on lap 42. A huge fire underneath the hood of Idaho's Mike Anderson brought out a red flag on lap 44 and brought the race to its scheduled halfway break six laps early. Andy Brown had advanced to fifth by that point.

Casey Jeske retook the lead on lap 46 before a caution for Flower's car suffering a fire. Justin Carson of Utah and Parenteau tangled in turn one for a caution on lap 49.

Brown started rolling the outside line and took over third on lap 52. Then Mitch Jeske dropped out of the race on lap 56. Brown continued to roll, sweeping past Casey Jeske to lead lap 59. Parenteau and fifth-running Bryce Rupert clashed in turn one to set up a shootout final 28 lap segment for the feature.

Madera Racing on MAVTV airs Monday nights at 6pm Pacific and 9pm Eastern. Check www.MAVTV.com for program listings.

The Spokane Mini-Stock team of Andy Brown made their long trek to Central California and Madera Speedway worthwhile by winning the fifth annual Olga's California Dream 100, Aug. 17. Photo by Jake Scarbrough

What is a Noxious Weed? They are non-native plants that have been introduced to Spokane County through human actions. Because of their aggressive growth and lack of natural enemies, these species can be destructive, competitive, and difficult to control.

All parts of the plant is poisonous. Dig small patches ensuring entire taproot. Chemical spray when plant is in rosette stage. Mowing is ineffective.
