WEEKLY Horoscopes

for August 29 - September 5

-  **ARIES – Mar 21/Apr 20**
You may have a renewed sense of energy and motivation right now, Aries. Capitalize on that to tackle a laundry list of projects that have been sitting on the back burner.
-  **TAURUS – Apr 21/May 21**
Taurus, your sense of humor and quirky personality could get you a few extra chuckles from friends this week, but try not to take it too far. Factor in time for serious pursuits.
-  **GEMINI – May 22/Jun 21**
Gemini, when focusing on your health this week, remember that stress reduction is an important component of getting healthy. Aim for activities that focus on relaxation.
-  **CANCER – Jun 22/Jul 22**
Everyone's heads are seemingly in the clouds right now, Cancer. It may feel like you are the only person with your feet on the ground ready to get down to business.
-  **LEO – Jul 23/Aug 23**
Leo, people have been gravitating in your direction for some time seeking advice. You can open up conversations to other topics that are important to you with such a captive audience.
-  **VIRGO – Aug 24/Sept 22**
Strong emotions could be drummed up this week and may cause you to be distracted more so than usual. Try to get a break so you can make some time sort things out.
-  **LIBRA – Sept 23/Oct 23**
Libra, being honest with yourself is important as you confront a notable challenge. Accept a self-assessment and devise a plan to make the most of this opportunity.
-  **SCORPIO – Oct 24/Nov 22**
You have to develop a strategy before making your next move, Scorpio. Whether it is a business proposal or something with a friend or family member, don't be too hasty.
-  **SAGITTARIUS – Nov 23/Dec 21**
Sagittarius, you may notice that people are very sensitive to what you are saying, so you may have to change your approach if you want your message to be well-received.
-  **CAPRICORN – Dec 22/Jan 20**
Something could be brewing but you can't identify what it is just yet, Capricorn. This could lead you to feeling restless and out of sorts. Give it some time and it will work out.
-  **AQUARIUS – Jan 21/Feb 18**
Others' words are meaningful to you right now, Aquarius. Consider these opinions and spend time figuring out how to incorporate this advice.
-  **PISCES – Feb 19/Mar 20**
Pisces, often it can be challenging to take the high road But that's just what you have to do right now. Others will recognize your willingness to set a good example.

Fishing Magician

Dave Johnson

Reach Dave @ www.FishingMagician.com or FishBoy@nwi.net

"The Outdoor Insider"

You make plans and then Mother Nature steps in and throws a kink in it. I was planning to fish Banks Lake last week, but it didn't happen. Instead of two trips to Banks Lake I wound up fishing much closer to home and having a great time anyway.

I told you my daughter Whitney loves to fish Banks Lake. She has great luck catching walleye and smallmouth bass. She also likes to take swim breaks while we are on the water, and that was the plan for last weekend. However, it poured down rain on Saturday, so we had to come up with something else to do. We went to the Pybus Farmer's Market and got some Quincy corn and Manila clams for dinner. Then we drove to Sunnyslope to visit Ohme Gardens, something she has wanted to do for years. The rain held off long enough for us to explore this very special place with vistas of the Wenatchee Valley. On Sunday I took her to Fish Lake. We had fished here before, but never for perch. I picked a spot out in the middle of the lower end of the lake, and we tossed out our hooks baited with chunks of nightcrawler. There were plenty of perch around and she had a blast. The sun came out, the wind died down, and we watched both a bald eagle and ospreys pluck fish from the lake. I sent her home with a bag of perch fillets for dinner—Yum!

Mabel Jima was visiting her grandparents, Tom and Diane Verschuren, who live in Dryden, and I wanted to take her fishing while she was here. This 10-year-old is an accomplished angler who catches fish from the dock at her home on Lake Sammamish. Fish Lake is close to our home in Leavenworth, and I figured we could entertain her with perch fishing. It was a bit breezy when we arrived at the lake, but nothing like what I had been dealing with on Lake Wenatchee during sockeye season. I drove the boat out to where I usually find schools of perch, and looked and looked but didn't really find anything. Finally, I just shut down the big motor and put the bow mount down on Anchor Mode. We baited our hooks with pieces of nightcrawler and tossed them out. I

immediately hooked a perch and soon we were all hauling in fish. Mabel got the hang of it and even took the perch off the hook and dispatched them with the fish bat. We went through a tub of crawlers and caught over 40 nice perch. She had a great time and looks forward to another trip to Fish Lake soon. This week's photo is of Mabel with one of the perch she caught at Fish Lake.

I had two trips to Banks Lake planned for this week. Unfortunately, the weather caused the cancellation of both trips. I will get there soon though. It is one of my favorite places to fish here in Central Washington. Not only have I had good success here catching walleye and smallmouth bass, but it

is also uniquely scenic. I like to take people to Banks that have never seen it before. They are in awe of the basalt cliffs that line the shores, and the views of Steamboat Rock are spectacular. I spend most of my time fishing for walleye from Million Dollar Mile up to Jones Bay. I will not only be describing the locations that my friends and I like to fish on Banks, but details on the methods we use to catch them. Through my videos I hope to give anglers that haven't been to Banks enough information to give them a jump start to successful fishing for walleye.

I have talked about how much fun I have casting for trout in our area streams. The experience puts me in a relaxed state of mind. When I am on

the Icicle, upper Entiat or Kettle rivers, I think of nothing else but where to place my next cast. The anticipation of a trout coming up and swatting my fly keeps me in focus and in the moment like nothing else. When I tell people about how much I love fly fishing, some of them remark that it sounds like something that would take a lot of time to learn and could be costly. The truth is that casting flies on small streams doesn't require sophisticated casting technique and a fly rod, reel and floating line really doesn't cost more than to get set up for fishing for salmon on Columbia River. Like many fly fishers that have been at it for years, I have a huge number of flies that I have collected for all types of fly fishing, from trout to steelhead and even bonefish and tarpon. To effectively fish our small streams though you can fish on all of them with only a Parachute Adams, Elk Hair Caddis, Stimulator and a Renegade. My brother in law Tom Verschuren fished the Icicle last weekend and reported that the steam is in ideal shape for easy wading and fun fishing.

I ended my sockeye season on Lake Wenatchee last week and brought my boat home. Now the work starts. Before I can get ready for another fishery I need to first get my sockeye gear sorted out. There are broken leaders scattered in the gunnel trays, lead balls to be sorted by size, rods to be stored, and the overall clutter cleaned up. The deck of my boat is surprisingly clean, mainly due to the excellent washdown system in this Smoker Craft. It took a while to sort out all the sockeye gear, and it is important that it goes somewhere that I can find it when the season comes up next year. I am used to switching out gear to change what I need for different fisheries. I will be loading my walleye gear into the boat. My friend Brian Nielson is going to help me do videos on some of the best places to fish for walleye on Banks Lake and Potholes Reservoir.

I am really eager to do some walleye fishing, and to do some videos on where to catch them. Look for some new shows to watch very soon!

What's The Difference? AKC, CKC & UKC

AKC (American Kennel Club)

Founded 1884

Breeds Recognized: 193

The AKC is a registry only for purebred dogs that live in the USA. To register a dog, both parents of the same breed must be registered with the club.

CKC (Continental Kennel Club)

Founded 1991

Breeds Recognized: Over 450

The CKC is an open registry and allows dogs to be registered whose parents are not registered. To do this they require 2 witness signatures and 3 photos to show the dog meets breed standards. Those documents are reviewed by the CKC and can accept or deny the dog's registration.

UKC (United Kennel Club)

Founded 1898

Breeds Recognized: Over 300

The UKC is an international dog registry with dogs registered from all over the world. They use DNA testing to prove a dog's parentage if their parents are not registered. The UKC focuses on the whole dog and they place a lot of emphasis on the breed's abilities.

DRIVING THE AMERICAN DREAM: 1970's CAR DESIGN AT MAC

SPOKANE — The Northwest Museum of Arts and Culture has turned its main gallery into a retro car emporium for the exhibition, Driving the American Dream: 1970s Car Design. This journey back to the 1970s showcases the distinctive car designs that emerged during a pivotal era in American automotive history.

The exhibit can be visited until Sept. 8. The 1960s marked an unprecedented time in automotive innovation, with American car companies vying for supremacy in horsepower, size, and luxury. But the flamboyance of the '60s gave way to a less prosperous decade influenced by Watergate, fiscal stagnation, and the energy crisis. By the early 1970s, U.S. government regulations on fuel economy and emissions forced American automakers to downsize their models and reduce horsepower.

"The 1970s were years of general malaise for the U.S. automotive industry," said Cory Komberec, curator of the exhibition. "Asian and European cars were already smaller, more efficient, and generally better-built than their U.S. counterparts, so sales of American cars slumped."

Driving the American Dream is a show-room-sized retrospective of '70s cars, now appreciated as true classics and iconic symbols of an era deeply ingrained in

America's collective consciousness. Featured Cars:

- 1969 Mercury Cougar XR7 convertible
- 1969 Lincoln Continental Mark III
- 1970 Chevrolet Chevelle convertible
- 1971 Dodge Charger
- 1972 DeTomaso Pantera
- 1972 Volkswagen Super Beetle
- 1973 Mercury Cougar XR7
- 1974 Datsun 240Z

Exhibition curator and photography is by Cory Komberec and exhibition design by local artist Chris Bovey.

The Northwest Museum of Arts and Culture is located at 2316 West First Ave. in Spokane and further information can be found by visiting NorthwestMuseum.org.

The Northwest Museum of Arts and Culture will show off a unique exhibit of 1970s cars called Driving the American Dream through Sept. 8. Mac Photo

FESTIVAL OF SPEED AT QLISPE, AUG. 30-SEPT. 1

AIRWAY HEIGHTS — Qlispe Raceway — formerly Spokane Raceway Park/Spokane County Raceway — will present its biggest road course event of the season with the running of the 13th annual Festival of Speed, Aug. 30 – Sept. 1 of the 2.25-mile track.

"This year BMW of Spokane is our main sponsor, and our focus is on the PRO3 racing series, which will be racing all that weekend," spokesperson John Barlow wrote in an email.

As with past events the FOS has a charitable beneficiary, Children's Cancer Coalition

(Formerly known as ACCOIN). Further info on that group is available at www.CCCNW.org.

First run in 2011 the FOS has showcased many different sports car classes and under guidance of a local club, Northwest Motor-

sports, who is running the racing portion.

The FOS organizers are backing way from racing to concentrate on behind-the-scenes activities.

"We are doing food trucks, an expected 500-600 trackside car show, and a BBQ dinner in the evening," Barlow said.

Racing runs Friday - Sunday from 8 a.m. until about 3:30-4:30. The Spokane Festival of Speed event is Saturday only with the car show running from noon to about 8 p.m.

Visit www.SpokaneFestivalofSpeed.org for complete details.

Some of the racing action from a past Festival of Speed.

2ND HOWARD SPAIN MEMORIAL RACE IS AUG. 31.

DEER PARK — The memory of a popular drag racer will be honored on Saturday, Aug. 31 and money raised in the second annual Howard Spain Memorial Race.

The event, which will be staged at the old Deer Park drag strip will be limited to just 50 racers with the entry fee of \$150 per car.

Pre-registration is required and can be done on Facebook through EPCRacing.com. Gates open at 9 a.m. The entry gate is on the left at the end of Missile Site Road.

According to a Facebook post, "Howard Spain aka Howie, was not just a great friend, he was a great racer."

Spain is described as a guy on and off the track that would help anyone at any time.

"He touched many races and people have a lot of respect for him in his community in Kalispell, Mont. running Howie's Tire Shop in Whitefish."

Spain knew everyone in the Kalispell/Whitefish area as he was born and grew up in the community. "We can't say how much his friendship meant to so many of us, this is why we race in his name."

The first memorial raised \$15,000 for the family to cover services.

Howard Spain's race car. A fundraiser to help the family following his death in 2023 will take place at the old Deer Park Drag Strip, Aug. 31. It is limited to just 50 entries. Howard Spain family photo

NOXIOUS WEEDS

What is a Noxious Weed? They are non-native plants that have been introduced to Spokane County through human actions. Because of their aggressive growth and lack of natural enemies, these species can be destructive, competitive, and difficult to control.

WHITE BRYONY

WHITE BRYONY (BRYONIA ALBA)

This perennial is a toxic vine that grows 12 or more feet long. Leaves are triangular with broadly toothed edges. Always wear gloves and protective clothing when working with White Bryony as all parts of the plant are toxic! Hand pulling these weeds is not enough as their roots dig into the ground for inches. When removing make sure to go a couple of inches below the surface to ensure the roots are removed.

For More Information on how to Control your Noxious Weeds, Contact: Spokane County Noxious Weed Control Board 509-477-5777 • www.spokanecounty.org/weedboard

MAINTENANCE TIPS FOR FIRST TIME HOMEOWNERS

Part 2

As a first-time homeowner, you now have a place to call your own. Routine home maintenance will help you enjoy your new home for years to come. Maintaining your home not only helps ensure your home is working at an optimal level, but helps to identify or fix problems before they become a larger issue. To keep your home comfortable and enjoyable, consider adding these maintenance items to your annual list of home activities:

- Schedule an HVAC Tune-up
- Clean Your Gutters
- Touch Up Exterior Paint
- Check Your Smoke Detectors

Smoke detectors save lives. According to the National Fire Protection Association (NFPA), three out of five home fire deaths result from fires in properties without working smoke alarms. NFPA recommends testing all smoke alarms in your home at least once a month. Simply press the test button to be sure the alarm is working. Follow the manufacturer's maintenance instructions if available. NFPA also recommends a visual inspection of the detector for damage. The detector should not be dirty or obstructed.

Re-Caulk Your Windows

If you have a drafty window or if you can see daylight around a window frame, then you may have an air leak. Caulk — a flexible material used to seal air leaks — can be found at any hardware store. There is caulk for exterior windows, which can withstand different types of weather, and interior caulk, which shouldn't emit any toxic fumes. According to energy.gov¹, the best time to apply caulk is during dry weather when the outdoor temperature is above 45° and low humidity will prevent cracks from swelling with moisture.

For more home maintenance tips, contact the Central WA Home Builders Association!

Smoke Alarms at Home

SMOKE ALARMS ARE A KEY PART of a home fire escape plan. When there is a fire, smoke spreads fast. Working smoke alarms give you early warning so you can get outside quickly.

SAFETY TIPS

- Install smoke alarms in every bedroom. They should also be outside each sleeping area and on every level of the home. Install alarms in the basement.
- Large homes may need extra smoke alarms.
- It is best to use interconnected smoke alarms. When one smoke alarm sounds, they all sound.
- Test all smoke alarms at least once a month. Press the test button to be sure the alarm is working.
- Current alarms on the market employ different types of technology including multi-sensing, which could include smoke and carbon monoxide combined.
- Today's smoke alarms will be more technologically advanced to respond to a multitude of fire conditions, yet mitigate false alarms.
- A smoke alarm should be on the ceiling or high on a wall. Keep smoke alarms away from the kitchen to reduce false alarms. They should be at least 10 feet (3 meters) from the stove.
- People who are hard-of-hearing or deaf can use special alarms. These alarms have strobe lights and bed shakers.
- Replace all smoke alarms when they are 10 years old.

FACTS

- ! A closed door may slow the spread of smoke, heat, and fire.
- ! Smoke alarms should be installed inside every sleeping room, outside each separate sleeping area, and on every level. Smoke alarms should be connected so when one sounds, they all sound. Most homes do not have this level of protection.
- ! Roughly 3 out of 5 fire deaths happen in homes with no smoke alarms or no working smoke alarms.
