# Fishing Magician

*Dave Graybill*

Reach Dave @ [www.FishingMagician.com](http://www.FishingMagician.com) or [FishBoy@nwi.net](mailto:FishBoy@nwi.net) "The Outdoor Insider"

I got out and about last week, looking for spots where anglers would find some good fishing. I visited several locations in Grant County. I also want to remind anglers that there are some ice fishing events coming up in Okanogan County very soon.

I decided to take a swing through the area and check on a couple of places that I haven't been to in a while. I am always curious about the perch fishing on the Wasteway on Road 5 NW. Some years ago, it was loaded with small perch, and we even made a few family outings there and the kids would have a ball hauling the perch up the steep bank. I can usually tell if the perch are back. There would be telltale signs of anglers, like discarded worm cartons and such. It was evident that no one had been fishing, so I moved on to another location that I wanted to check on. When the water is drawn down on Billy Clapp Lake, only very small boats launch to fish here in the winter. Last year, when I stopped by, I found anglers fishing from the shore. I could tell that some of them were regulars, and one even showed me some photos of some whopper rainbow he landed from the beach. I even did a short video on the shore fishing: "Winter Fishing at Billy Clapp" can be found on the Dave Graybill YouTube channel. Check it out.

The bridge or right under it. I have seen days here when so many boats were tied to the pilings there wasn't room for any more. This is a great place to be if it's raining or snowing. From what I have learned about fishing in the region, Moses Lake will be the place to be for a while. This week's photo was taken at Moses Lake.

We seem to be in a kind of limbo with a variety of fisheries in the region. Steelhead fishing is slow, but the fish being caught are of very good size and in great shape as it is early in the winter season. Anglers who are looking for the big triploid rainbow that inhabit

I hope you have made plans to attend the Molson Ice Fishing Derby in Molson, near Oroville. This will be the 21st year that the community has conducted a derby, and it just gets bigger and better every year. I attended the event several years ago and was very impressed with how this small community turns out to make sure everyone is having a good time. It will take place on Saturday, January 18th this year and the actual fishing will be on nearby Sidley Lake. Registration can be done online through the Oroville Washington Chamber of Commerce website. Also, you can register at the event starting at 7 a.m. and the derby starts at eight and runs through one. There is a wonderful breakfast served at the Molson Grange Hall, and a lunch provided by Sitzmark. Hot chocolate will be available right on the lake while you're fishing. Thanks to a functioning aerator on the lake, fishing has vastly improved the past few years. The festival is sponsored by the Oroville Chamber and proceeds benefit the local community. This is truly a very fun event that the whole family can enjoy.

I called Jack at North 40 Outfitters in Omak to find out if there was anything going on in the area up north. He told me not much. He did say that he went up to Bonaparte Lake recently and had a pretty good day. He caught some 13 to 14 inch rainbow through the ice. He said ice conditions were good on Bonaparte. No slush on top and five or six inches of clear ice, with that honeycombed stuff that is a mixture of ice and snow on top of that. Also, he talked to some folks that fished Rufus Woods Reservoir and reported that fishing is very slow. Other than that, there just aren't that many folks venturing outdoors with fishing on their mind. After talking to Jack, I pulled up the Bonaparte Lake Resort Facebook page to see what I could learn. I am glad I did. Turns out they are having an ice fishing derby again this year. It will take place on January 25th. You can register the day of the event or online.

The last spot I stopped at when I was exploring the fishing activities in Grant County last Thursday was at Moses Lake. This has been where I have found good numbers of anglers for the past month or more. The perch and crappie fishing continues to be the best opportunity for great action. I found several cars in the parking lot at Blue Heron Park, and the passengers were either fishing from the I-90 Bridge or from the shore near the cut under the bridge. I also checked the boat ramp at Blue Heron as well and found a half-dozen trucks and trailers that had used this launch. The water level is still high enough to allow for launching without having to walk through a lot of muddy sand to get into your boat. I could see two boats anchored either above

it Rufus Woods Reservoir are having limited success at the net pens and the same could be said for the walleye fishing at the upper end of the reservoir. One fishery that is just getting started is for the big lake variety whitefish on Banks Lake. Every winter these fish move into certain areas of the lake and offer great action. The whitefish often weigh 2 to 3 pounds. Three areas of the lake that I see anglers fishing for whitefish are at the very top end, where anglers fish from shore or from boats near the inlet where water is pumped into Banks. Not far from the Northrup boat launch, anglers fish one of the bays in Devils Lake. When Banks freezes, I see large groups on the ice near the island above the highway. Perch fishing at Moses Lake is still the bright spot on the fishing scene.

## Joke of the Week

Why is the mushroom always invited to parties?

Answer: He's a fungi!

**NW MOTORSPORTS Report**

"Going fast is your job...Telling people about it is ours...!"

**HERMISTON RACEWAY WILL NOT OPERATE IN 2025; LAND SOLD, LEASE CANCELLED WITH WALDEN FAMILY**

HERMISTON, Oregon — Effectively just weeks prior to the start of the 2025 season, the operators of Hermiston Speedway received word that the land has been sold and they must vacate the premises by January 15.

"To say I was caught off guard is an understatement," promoter Greg Walden wrote in a Facebook post. "We had a verbal agreement to continue in 2025 and were getting a plan together to purchase the facility."

Walden indicated he had 10 events planned and were looking forward to a promising 2025 season. "But as things stand, it seems we have already held our final event," he added.

"Despite this gut-wrenching end, we want to extend our deepest thanks to the drivers, sponsors and fans who supported us throughout the years," Walden said "You helped make Hermiston Raceway a success, and for that, we are forever grateful."

While Hermiston will be no more, Walden has arranged for certain events to move to the half-mile Tri City tri-oval.

"As we close this chapter, we are excited to add our signature events to my existing schedule at Tri-City Raceway," Walden said. "With an 11- event schedule planned, we anticipate continued growth and thrilling competition, making Tri-City Raceway the undisputed hub for motorsports."

Currently Walden is assembling investors and resources to bring a quarter-mile oval track at Tri-City Raceway bringing Hermiston local divisions to the facility.

"We will be still be having The Night of

Champions this Friday and look forward to sending out Hermiston Raceway with the amazing memories that were made," Walden said referencing the track banquet.

Originally built by Charlie and Pat Kik, the track opened in April 1967 and after four seasons was leased to a number of people including Bill Amick who operated the speedway in the early 80s.

The Kik family finally sold the facility to Chuck and Peggy Satko in 1988.

The track has been known by several different names in its existence from Umatilla Speedway, Race City USA, Columbia Motor Speedway and Hermiston Super Oval.

Walden and his family have operated the track since 2018 when they initially signed a 3 year lease.

They had originally planned to lease Yakima Speedway but due to the pending sale by owner Ted Pollock that deal fell through.

"We had a schedule already in place and then found out that Hermiston was not going to operate in 2018," Walden explained. "We decided to plug our schedule into Hermiston for 2018."

When the Waldens took over the facility needed \$20,000 in wood to repair the seats. They repaved customer entry, added some equipment and put in a PA system.

"None of the success of the speedway would have happened without the experiences of helping Wayne (Walden) during the 1998 season, his last, and having his insight of 17 years promoting Tri City Raceway," Greg Walden said referencing his father.

Hermiston Raceway, the 3/8's mile racetrack in Hermiston, Oregon was sold and will close according to promoter Greg Walden who operated the track since 2018. The track opened in 1967 and ran most every season since under a variety of names and operators. Hermiston Raceway photo

**Smoke Alarms at Home**

**SMOKE ALARMS ARE A KEY PART** of a home fire escape plan. When there is a fire, smoke spreads fast. Working smoke alarms give you early warning so you can get outside quickly.

**SAFETY TIPS**

- Install smoke alarms in every bedroom. They should also be outside each sleeping area and on every level of the home. Install alarms in the basement.
- Large homes may need extra smoke alarms.
- It is best to use interconnected smoke alarms. When one smoke alarm sounds, they all sound.
- Test all smoke alarms at least once a month. Press the test button to be sure the alarm is working.
- Current alarms on the market employ different types of technology including multi-sensing, which could include smoke and carbon monoxide combined.
- Today's smoke alarms will be more technologically advanced to respond to a multitude of fire conditions, yet mitigate false alarms.
- A smoke alarm should be on the ceiling or high on a wall. Keep smoke alarms away from the kitchen to reduce false alarms. They should be at least 10 feet (3 meters) from the stove.
- People who are hard-of-hearing or deaf can use special alarms. These alarms have strobe lights and bed shakers.
- Replace all smoke alarms when they are 10 years old.

**FACTS**

- ! A closed door may slow the spread of smoke, heat, and fire.
- ! Smoke alarms should be installed inside every sleeping room, outside each separate sleeping area, and on every level. Smoke alarms should be connected so when one sounds, they all sound. Most homes do not have this level of protection.
- ! Roughly 3 out of 5 fire deaths happen in homes with no smoke alarms or no working smoke alarms.
