# WEEKLY Horoscopes for February 20 - 26

### ARIES – Mar 21/Apr 20

Aries, impulsiveness may cause friction with loved ones this week, so avoid rushing into decisions. Keep an open mind when others come to you with their thoughts.

### TAURUS – Apr 21/May 21

Taurus, expect some clarity regarding a recent financial decision this week. You'll get the answers you need about budgeting and other investments you've been mulling over.

### GEMINI – May 22/Jun 21

This week you may be tempted to over-commit to social endeavors, Gemini. Keep your boundaries in check, especially if you are having difficulty telling other people, "no."

### CANCER – Jun 22/Jul 22

Cancer, much of your to-do list this week will focus on your home life. Take a break from the hustle and spend time bringing order and balance to spaces in your home.

### LEO – Jul 23/Aug 23

Your words carry a lot of weight right now, Leo. Be very careful about the opinions you offer and the stories you share. By the weekend you may be called upon for some advice.

### VIRGO – Aug 24/Sept 22

Virgo, if you have been thinking about making some sweeping financial decisions, now is the time to take action. Putting things off for another day can wreck long-term plans.

### LIBRA – Sept 23/Oct 23

Sometimes you have to give yourself a pat on the back when others are not offering the feedback you need, Libra. You are doing a great job and learning along the way.

### SCORPIO – Oct 24/Nov 22

You often keep your cards close to the vest, Scorpio. Others may be surprised to learn a project you have been working on for some time has come to fruition.

### SAGITTARIUS – Nov 23/Dec 21

Personal ambitions are at the forefront of your mind, Sagittarius. However, you may be placing too much importance on financial matters rather than the other rewards from hard work.

### CAPRICORN – Dec 22/Jan 20

You are doing quite well in your professional life right now, Capricorn. But in terms of home life, there are definitely some areas that can use improvement. Focus on those things.

### AQUARIUS – Jan 21/Feb 18

Aquarius, you could be feeling a strong urge to declutter personal spaces, such as the garage, closets or even your home office. Find the time to start sorting through belongings.

### PISCES – Feb 19/Mar 20

All it may take is a simple conversation to clear up some persistent misconceptions, Pisces. Figure out when to schedule that talk and afterwards you will feel better.

# EQUIPMENT, TRACTORS & TRAILERS

# GUIDE TO ROUTINE HOME MAINTENANCE & DESIGN

## Part 1

Your home may be the biggest investment you will ever make. An experienced homeowner knows the importance of a good home maintenance checklist.

This will help you stay on top of tasks like replacing air filters, testing smoke and carbon monoxide detectors, and checking the water heater for leaks. Seasonal home maintenance is also crucial. In the warm weather, you'll want to ensure your air conditioning system is working properly and clean the dryer vent to prevent fire hazards. Cold weather calls for checking the roof for damaged shingles and ice dams, and making sure your furnace air filter is clean.

By taking care of these maintenance tasks, you'll keep your family safe, save money on repairs down the road, and extend the life of your house. Taking good care of it with regular maintenance is necessary to preserve its value and ensure it will provide a comfortable, safe shelter for you and your family for years to come.

### Indoor Home Maintenance Checklist:

#### □ Air Filters

Many types of heating and air conditioning systems (HVAC systems) contain filters to remove dirt and dust from the air. Check the instruction book or search online by model number. In many cases, the home owner should change air filters of the air conditioning system at least once every three months.

#### □ Sinks

It's also a good idea to clean your faucet's aerator — which is the spring inside the end of the faucet — every three to four months.

To maintain your garbage disposal, you should run cold water through it during use.

#### □ Fireplaces

When you're ready to use your fireplace, be sure to build the fire on the andirons or grate, never on the fireplace floor.

To prevent soot and to add color to the fire, throw in a handful of salt.

Store your firewood outside, away from the house and not directly on the ground.

Have a CSIA-Certified chimney sweep inspect your chimney and fireplace annually, especially if you build a lot of fires in the winter.

#### □ Floors

To maintain unpainted concrete floors in your basement or garage, first apply a concrete sealer, which makes them easier to clean. When you're ready to clean them, use a solution of four to six tablespoons of washing soda in a gallon of hot water. Add scouring powder to the solution for tough jobs.

For hardwood, be sure the floors have a polyurethane finish before cleaning with water. Hardwood floors that do not have a polyurethane finish will need to be waxed periodically. Use liquid or paste "spirit" wax. The best polish for vinyl floors in water emulsion wax.

#### □ Walls

Masonry walls sometimes develop a white powdery substance. This is called efflorescence, a crystallized soluble salt that can be removed by scrubbing with water and a stiff brush.

#### □ Safety and Security

If you have a home security system, regularly check the alarms and circuit breakers to ensure they are in working order. Inspect the sensors one by one.

The batteries in your smoke and carbon monoxide detectors should also be checked twice a year to ensure they are operable. Hard-wired and battery-powered detectors should be replaced every 10 years.

For professional maintenance needs, see Central Washington Home Builders list of professionals at CWHBA.org or call 509-454-4006 and Check out next week's article for Outdoor Home Maintenance Tips & Simple repairs.
